

Gray Davis, Governor

STATE CLEARINGHOUSE

NEWSLETTER

September 16 through 30, 2002

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **September 16 through 30, 2002.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse.html#clearinghouse

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Gregoria Garcia (for projects in Northern California)
Becky Frank (for projects in Southern California)

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Ms. Terry Roberts
Director, State Clearinghouse
Office of Governor Gray Davis
Planning and Research
1400 Tenth Street
Sacramento, CA 95814

Dear Ms. Roberts:

The California Department of Transportation (Department) hereby submits this notice for Intergovernmental Review (IGR) process purposes for projects in the 2002 Federal Statewide Transportation Improvement Program (FSTIP). These projects are referenced in the Federal Transportation Programming documents adopted by the Metropolitan Planning Organizations (MPOs) shown on the attached list.

If you have any questions or would like to obtain copies of these documents, please contact Kris Balaji, Chief, Office of Federal Transportation Management Program, at (916) 654-2983.

Sincerely,

Original Signed By

JIM NICHOLAS
Chief
Division of Transportation Programming

CEQA & Planning Case Law

Summary of Recent CEQA & Planning Case Law

The following are summaries of recent court cases relating to the California Environmental Quality Act and/or land use planning law.

No Cases have been selected for the period of September 16-30, 2002.

Please be advised, the information contained in these summaries does not constitute legal advice, nor should the summaries be relied upon as a matter of law. Refer to the full text of the cases cited for the complete ruling and case facts.

DATE: AUGUST 12, 2002

TO: ALL CEQA LEAD AGENCIES

FROM: TERRY ROBERTS, STATE CLEARINGHOUSE

RE: CONFIRMATION OF RECEIPT FOR NOTICES OF DETERMINATION

We regret to inform you that the State Clearinghouse will no longer be able to honor requests for written confirmation of the posting of a Notice of Determination (NOD) or Notice of Exemption (NOE) with the Governor's Office of Planning and Research (OPR). In the past, and as a courtesy, we were able to comply with requests for written confirmation. However, due to recent budget cuts and an increasing volume of special requests, we can no longer provide such confirmation, either by mail or by fax.

Sections 15075 and 15094 of the CEQA Guidelines spell out the responsibility of the State Clearinghouse to post NODs. Section 15062 (c) of the Guidelines spells out the responsibility of the SCH to post NOEs. We realize the importance of timely posting because this begins a statute of limitations on court challenges. OPR will continue to post NODs and NOEs in a timely manner and enter the notice information in our online CEQAnet database.

If you fax a NOD or NOE to the State Clearinghouse, please retain the fax confirmation for your records. If you file a NOD or NOE with us in person, please provide a second copy of the document and we will at that time be happy to date stamp and return it to you immediately. If you mail a NOD or NOE to us, you may call the State Clearinghouse at (916) 445-0613 to request verbal confirmation of receipt, or obtain written confirmation of posting by printing a report from the CEQAnet database at www.ceqanet.ca.gov.

We apologize for any inconvenience this may cause and will continue to provide the best possible service to the public within our means.

CEQA Documents

Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

<u>Documents Received on Monday, September 16, 2002</u>			
2002042134	Oakley 2020 General Plan Oakley, City of Oakley--Contra Costa The current Contra Costa County General Plan was adopted by the City of Oakley in 1999 to serve as the Oakley General Plan until completion and adoption of the Oakley 2020 General Plan . The Contra Costa County General Plan assumed a planning horizon of 1995 -2010 and address growth, development, housing, and recreational use within the Oakley community, as well as the remainder of the unincorporated area of Contra Costa County. The primary function of the General Plan is to prescribe growth within the region in an orderly fashion and to allocate specific areas for development that will cause the least impact to the environment.	EIR	10/30/2002
1996112029	Teichert Aggregate Facility Revised Draft EIR Placer County Lincoln--Placer Proposed phased mining and reclamation project and aggregate processing plant.	FIN	
2002091069	La Habra Heights General Plan Update La Habra Heights, City of La Habra Heights--Los Angeles Update to the City's General Plan. Revised elements include Land Use Element, Circulation Element, Environmental Resource Management Element, Safety Element, Air Quality Element, and Noise Element.	NOP	10/15/2002
2002091070	Specific Plan No. 288, Amendment No. 1 (The Crossroads in Winchester Specific Plan) Riverside County Transportation & Land Management Agency --Riverside A proposal consisting of 222 total acres. Within the specific plan of land use proposal 13 Planning Areas are proposed. Land use designations area as follows: 136.8 acres are proposed to be designated as residential with the following densities: 112.3 acres of medium density residential (ranging from 5,000 square foot lots to 7,200 square foot lots) for a maximum of 462 dwelling units, 24.5 acres of high density residential for a maximum of 441 dwelling units. In addition, the secific plan also includes the following proposed designations: 30.0 acres of Commercial uses; 48.8 acres of Open Space; and 6.4 acres devoted to major road rights-of-way. The Specific Plan Amendment has increased the total number of dwelling units by 112 for a total of 903 dwelling units.	NOP	10/15/2002
2002091071	Los Angeles Mission College Facilities Master Plan EIR Los Angeles Community College District --Los Angeles Los Angeles Mission College is initiating environmental studies on its proposed Master Plan, which seeks to create a more active and productive Mission College-educationally, economically, and in the community. The proposed Master Plan would accommodate a maximum future enrollment of 15,000 new students and would include expansion and improvement of existing facilities, construction of new facilities on property adjacent to the College, and recreational improvements to the surrounding El Cariso Park and Golf Course. In the coming months, a Draft Environmental Impact Report (DEIR) will be prepared that will include the results on an extensive review of the proposed projects' environmental effects. Upon completion in early 2003, the DEIR document will be made available for public	NOP	10/15/2002

	review and comment.		
2002091072	O'Connell Ranch Specific Plan San Benito County San Juan Bautista--San Benito Specific Plan, General Plan Amendment and Zone Change to allow a planned development with 361 residential units, 40 acres of highway commercial and an 80 acre memorial park.	NOP	10/15/2002
2002011101	National City Wells Aquifer Storage and Recovery Program Sweetwater Authority National City--San Diego National City Wells, Well #4 would include construction of a 12-inch diameter approximately 800-foot deep well on the 1.64-acre Sweetwater Authority property northwest of the National City well site. The well would produce from 700 to 900 GPM of water. An 8-inch diameter, 750-foot long pipeline would also be constructed to deliver the well water to the existing tank at the National City Wells site. Well No. 4 would replace the failing Well No. 2, which will remain on standby.	Neg	10/15/2002
2002091073	Lila Keiser Park Light Replacement, CDP 08-01R/SUP 02-01 Morro Bay, City of Morro Bay--San Luis Obispo Replacement of ball park lights in different locations.	Neg	10/15/2002
2002092047	Eugene BeDell Humboldt County --Humboldt A minor subdivision of a 21.93 +/- acre parcel into parcel 1 of 11.86+/- acres and parcel 2 of 10.07 +/- acres. Proposed Parcel 1 is developed with a mobile home and shed (to remain). Parcel 2 is developed with a mobile home (to be dismantled; the parcel will be developed with a single family residence). The parcels are/will be served by on-site sewage disposal. Water for Parcel 1 will be provided by an existing well on Parcel 2 via an appropriate easement. Water for Parcel 2 will be provided by a proposed on-site well. PG&E will provide gas and electricity. The parcel has a Q combining zone to allow for the phased upgrade of Sawdust Trail Road to a road category 4 standard, therefore construction of the next phase of road improvements will be a condition of the subdivision.	Neg	10/15/2002
2002092048	Monitoring Wells (AB303 Grant) Scotts Valley Water District Scotts Valley--Santa Cruz Construction of 3-400 ft. Monitoring Wells to explore the Santa Margarita and Lompico Sandstones and to monitor the water levels in these aquifers. This project is financed by a DWR AB 303 grant.	Neg	10/15/2002
2002092049	Indie Go Festival Use Permit (P-2002-16) Trinity County Planning Department Hayfork--Trinity Proposed three-day outdoor music festival. Activities will include multiple concerts throughout the three-day period, camping, food vendors, and sales of promotional materials. The applicant's are requesting permission for 15,800 persons, including staff, vendors, and concert attendees. The event is tentatively scheduled for June 2003 (pending approval of all permits.) The event is to be held on a 350-acre private ranch near Wildwood.	Neg	10/15/2002

Replace native trees removed at a 3:1 ratio within San Simeon District. project preserves integrity of historic landscape and protects natural resources.	NOE	
2002098242	Streambed Alteration Agreement concerning the San Diego River Fish & Game #5 San Diego--San Diego The Operator proposes to alter the streambed to adopt an Invasive Exotic Weed Eradication and Revegetation Masterplan for the portions of the San Diego River currently within the San Diego City Limits excluding those portions within Mission Trails Regional Park. This agreement will authorize revegetation work described in the Masterplan (Buckhart Environmental 2002) for those portions of the San Diego River that contain the following invasive exotic species: pampas grass, giant cane, Mexican fan palm, Canary Island date palm, castor bean, tamarisk, ludwigia, evergreen ash, Brazilian pepper, eucalyptus, bottlebrush, California pepper, carrotwood, Chinese elm, edible fig, myoporum, and oleander. Under the auspices of the Masterplan a 3-4 acre pilot project will be implemented. The 3-4 acre pilot project is located adjacent to the Carlton Oaks Golf Course. Of the 3-4 acres, 1-2 acres will be cleared of all exotic species but will not be revegetated with native riparian species; the site is expected to revegetate through natural recruitment. The remaining 2 acres will also be cleared of all exotic species but will be replanted with native riparian species. Native riparian habitats found along the San Diego River include: freshwater marsh, southern willow scrub, willow riparian woodland, cottonwood-willow woodland, sycamore woodland, and open water.	NOE	
2002098243	Seasonal Bridges Parks and Recreation, Department of --Monterey Seasonally install and remove approximately 25 temporary plank bridges (water crossings) at parks throughout the Monterey District. Minor clearing of vegetation and leveling of bank immediately adjacent to bridges (especially at new locations) may be necessary to facilitate installation. Installation and removal of the bridges	NOE

2002098280	Campfire Center Revegetation Parks and Recreation, Department of --Merced Plant approximately 15 trees at various locations around newly constructed campfire center at McConnell State Recreation Area. Install approximately 150 feet of underground water piping and four drip lines to provide irrigation for newly planted trees. Install hose bib at campfire center to protect public safety. Project enhances and supports natural resources. Development of this project fulfills mitigation requirements for the Campfire Center Rehabilitation/Repair Project completed in 2001.	NOE	
2002098281	Modoc National Forest Caltrans #2 --Modoc This is to acquire additional right-of-way from Modoc National Forest in the form of Department of Transportation easement relative to the construction of a rockfall elimination and embankment repair project on State Route 299 in Modoc County approximately 2.5 miles west of the community of Cedarville. The easement is necessary for the construction and maintenance of cutslopes on the north side of the highway. The easement was granted by the Forest via Special Use Permit for two parcels.	NOE	
2002098282	Tassajara Creek Bridge Installation Fish & Game #3 --San Luis Obispo SAA R3-2002-0474 The proposed project will install a bridge over Tassajara Creek to allow vehicular access to a home site. The bridge will be constructed by placing a railroad flatcar over the stream. The 53-foot long bridge will be just under 11 feet wide and will span the width of the stream channel. Concrete caissons will be constructed by drilling two holes on each side of the bank. The holes will be approximately two feet in diameter, 12 to 15 feet deep, and filled with concrete. A two foot high abutment will be placed on the caissons, and the bridge placed on top of the abutment. No construction will occur within the stream bed or channel, although an existing wetted stream crossing will be used to transport the drill from the left side of the bank (looking downstream) to the right side and back again.	NOE	
2002098283	Bank Repair Fish & Game #3 Santa Cruz--Santa Cruz SAA R3-2002-0705 The project includes the temporary repair of an eroded bank on Branciforte Creek by installing rip rap along the north and south banks.	NOE	
2002098284	Kelsey Creek Gravel Removal Fish & Game #3 --Lake SAA R3-2001-0821 Project is to remove 100-150 cubic yards of gravel from Kelsey Creek for private use.	NOE	
2002098285	Culvert Maintenance Fish & Game #3 Carmel--Monterey SAA R3-2001-0948 The project includes removal of gravel and debris that has accumulated behind a low water crossing.	NOE

1997011032	Carmel Valley Neighborhood 10, Unit 8 San Diego, City of San Diego--San Diego Carmel Valley Neighborhood 10 Amendment to Vesting Tentative Map (VTM 96-0736/96-0737) And Site Development Permit (PTS No. 1634) to develop 80 single-family residences within the Unit 8 South subdivision of Carmel Valley Neighborhood 10 instead of the previously approved 83 multi-family units. The project site is located within the southeastern portion of the Carmel Valley Community Planning area, approximately 15 miles north of downtown San Diego, 2 miles southeast of the City of Del Mar, and 2 miles east of the Pacific Ocean. The project site is bordered by several planned or existing units of Carmel Valley Neighborhood 10, including existing Units 5,6,7,8 and 10 to the north, planned Unit 8A to the East, existing Unit 3 to the south, and existing Unit 10A and an open space canyon to the west.	EIR	11/04/2002
2001051092	Poseidon Seawater Desalination Project Huntington Beach, City of Huntington Beach--Orange The project proposes to implement a seawater desalination plant producing about 50 million gallons per day (mgd) of potable water. The facility would intake raw seawater from the Pacific Ocean through the existing AES Huntington Beach Generating Station intake line, purify it utilizing reverse osmosis technology, discharge brine water through the existing AES outfall, and deliver potable product water to the regional water distribution system. Off-site components include a water transmission pipeline alignment extending into the City of Costa Mesa and booster pump station with an unincorporated portion of Orange County.	EIR	11/04/2002
2001112111	Bradshaw Road Widening Project Sacramento County Elk Grove--Sacramento The proposed project will widen Bradshaw Road from Morrison Creek to calvine Road, Install signals, Class II Bike lanes, and a bridge over Elder Creek.	EIR	11/04/2002
2002062095	Franklin McKinley Housing Project San Jose, City of San Jose--Santa Clara Planned Development Rezoning, annexation, and subsequent permits to allow up to 561 residential units including 201 senior units, 300 affordable housing units, and 60 townhomes on an 11.4 acre site.	EIR	11/04/2002

2002074004	Early Warning Radar Service Life Extension Program, Beale AFB, CA U.S. Air Force Marysville--Yuba Under the proposed action, computers, computer monitors, computer keyboards, tape and disk drives, other related computer equipment, and computer software that were manufactured in the 1970's and 1980's and are now obsolete would be replaced with modern computer equipment and software to continue operating the radar at Beale AFB.	FYI	
2002091086	Sun City by Del Webb Indio, City of Indio--Riverside The proposed project consists of a Project Master Plan (PMP) to regulate the use of approximately 2,700 +/- acre Gateway Conceptual Specific Plan (GCSP) Area located north of the San Bernardino Freeway (US 101) in the City of Indio. In addition to the PMP, the project includes certain conforming amendments to the City's General Plan Circulation Element and the Gateway Conceptual Specific Plan. The purpose of the PMP is to provide the City with more detailed plans prior to development and demonstrate that the requirements and guidelines within the GCSP are incorporated into the design of each individual project within the GCSP Area. A PMP is required to consist of a land use plan, circulation plan, utility, sewer, water, storm drain and landscape plans. Prior environmental analysis has been prepared for both the City's General Plan and the GCSP. Although development of the project site has already been assessed in this prior environmental analysis, given the new level of detail provided within the PMP and potential changes in existing conditions, a Supplemental EIR is being prepared to update the previous environmental analysis as needed to address current circumstances consistent with Section 15163 of the CEQA Guidelines. 	post will be installed every eight feet and will penetrate the substrate to a depth of approximately 18 inches. The fence will be a 4' tall durable wire mesh, know as "no climb".		
2002098310	Restroom Replacement at Circle Canyon Camp Parks and Recreation, Department of --Ventura The purpose of this project is to replace the existing pit toilet at Circle Canyon Camp with a new pre-cast "CXT Tioga" vault restroom, with the odor-free vent design. The existing pit toilet will be removed including the concrete vault. The new CXT restroom will be installed in the same location at the existing pit toilet.	NOE	
2002098311	Streambed Facilities Maintenance Parks and Recreation, Department of Tracy--San Joaquin There are two stream crossing points at Carnegie SVRA that requires clean-out and maintenance prior to the onset of winter rain. The first is a set of two 4-ft diameter culverts under the bridge to the maintenance yard. Approximately 400 cubic yards of cobbles and sediment will be removed from the streambed in this location. Excavated materials will be used for road repair in the upland portions of the park. The second crossing that requires maintenance is on the road to the Carnegie Sector office. Approximately 200 cubic yards of material will need to be removed from the channel at this location.	NOE	
2002098313	Petition to Add a Point of Diversion State Water Resources Control Board, Division of Water Rights --Plumas Water Right Permit 18597 was issued on October 1, 1982, to LaPorte Pines Country Club for the diversion of 0.077 cubic feet per second (cfs) for a total of 54.75 acre-feet per annum (AFA). This Petition to Change is to add an additional point of diversion to the permit. The additional point of diversion will be from another unnamed spring that is tributary to an unknown stream tributary to Rabbit Creek thence Slate Creek thence the North Fork of the Yuba River thence the Yuba River. The project consists of perforated pipe that has been laid in gravel packed trenches that lead to a concrete collection chamber. The concrete collection chamber serves as a distribution box for the storage tanks. Water will be stored in tanks with a combined capacity of 102,000 gallons. The season of diversion will be from January 1 to December 31. All water diverted will be used for the domestic use of the residents of LaPorte Pines Country Club in Plumas County.	NOE	
2002098314	Petition to Change State Water Resources Control Board --Sacramento This is an existing project that received a Water Right Permit 15174 (Application A022276), dated August 30, 1965 and was licensed on June 11, 1970 (License#9488), for the storage of 90 acre feet of water with a maximum use of 87 acre feet per annum. The water is collected from the South Fork of the Noyo River tributary to the Noyo River thence the Pacific Ocean. Water is used for irrigation of 66.73 acres of pasture, stock watering and recreation. Water is to be collected from November 1 - June 1 of the following year and stored in a 190 acre-foot reservoir. During a compliance inspection conducted by the State Water Resources Control Board on August 31, 2000, it was determined that 3.27 acres were not within the authorized place of use. Consequently, Soper Company filed a	NOE

	water right petition to add the additional 3.27 acres to the authorized place of use. The proposed project is to add 3.27 acres of existing vineyard to the authorized place of use for Water Right Permit 15174 (Application A022276) and to add frost protection as a purpose of use.		
2002098315	Big Oak Flat (Groveland) Landfill Final Closure and Post-Closure Maintenance Plan Tuolumne County --Tuolumne Final Closure and Post-Closure Maintenance Plan for the Big Oak Flat (Groveland) Landfill, involved an area of approximately 10 acres, including the 5 +/- acre footprint of the landfill which ceased accepting waste in May 2001. The project site is presently devoid of vegetation. Closure activities will include clearing and grubbing of larger rock material, foundation layer preparation (moderate grading), placement and compaction of the 24-inch thick foundation soil layer, installation of 60-millimeter Linear Low Density Polyethylene (LLDPE) geomembrane coupled with installation of the cover drainage system, placement and compaction of a 12-inch thick vegetative soil layer using on-site material from the U.S. Bureau of Land Management (BLM) permitted borrow area, and seeding the project area using a native seed mixture approved by the BLM in conjunction with miscellaneous drainage and erosion control improvements. The end of use of the site will be non-irrigated open space and continued operation of the medium volume Groveland transfer station. Post-closure monitoring will include installation of four gas migration monitoring probes and maintenance of the existing groundwater and surface water monitoring systems.	NOE	
2002098316	Installation of Sludge Drying Facilities Metropolitan Water District of Southern California Los Angeles, City of--Los Angeles The Metropolitan Water District of Southern California (Metropolitan) is proposing the installation of sludge dewatering equipment and storage facilities in the existing orchard field area located south of the Washwater Reclamation Plant No. 2 at the Jensen Filtration Plant. The sludge dewatering equipment will consist of two belt presses, a mixing tank, and a conveyor. Sludge shall be deposited on the ground amongst the existing landscaping. The removal of a small amount of the existing landscape may be required. As a result of the proposed project, Metropolitan would reduce the discharge of the sludge into the existing city of Los Angeles municipal sewer system.	NOE	
2002098317	New Board of Equalization Branch Office Equalization, Board of Long Beach--Los Angeles The Board of Equalization proposes to lease approximately 1,050 square feet of existing office space. The facility would house approximately 3 staff. This office will be established due to the legislative redistricting.	NOE	
2002098318	Relocation of Board Member's Office Equalization, Board of Long Beach--Los Angeles The Board of Equalization proposes to lease approximately 3,520 square feet of existing office space. The facility would house approximately 9 staff. This office will be used as the Board Members Office who is being relocated due to legislative redistricting.	NOE

	mortuary), and the construction of new facilities. The total square footage of the park facilities will increase from 18,910 sq.ft. to 38,275 sq.ft.		
2002092061	Napa County Sheriffs Facility and Devlin Road Extension Napa County --Napa The Sheriffs Facility will be constructed on County-owned land located within a developing industrial park in the Napa County Airport Area. In order to provide an alternative route for emergency vehicles, Devlin Road will be extended from its existing terminus, approximately 2,000 feet north of its intersection with Airport Boulevard north of Soscol Ferry Road.	Neg	10/21/2002
2002092062	Bella Vista Road Realignment Vacaville, City of Vacaville--Solano Street improvements including the widening of a portion of Davis Street and Bella Vista Road. Also, the realignment of Bella Vista Road and the Bella Vista Road & Davis Street Intersection.	Neg	10/21/2002
2002092063	Coon Creek Regional Park Placer County Planning Department Auburn--Placer The Coon Creek Regional Park site spans approximately 348 acres of the Sierra Nevada foothills. The proposed project will primarily result in the installation of a park access road, parking facility, emergency water tank, trail system, and an emergency vehicle bridge over Deadman Canyon. See enclosed project description for more information.	Neg	10/21/2002
2002092064	UC Davis Medical Center Child Development Center Project University of California, Regents of the Sacramento--Sacramento The UC Davis Medical Center proposes to construct an approximately 15,000-gross-square foot building at the Medical Center in Sacramento, California. The project site is on the east side of 49th Street, south of the existing Ronald McDonald House and north of the M.I.N.D Institute currently under construction. The proposed Child Development Center would provide space for up to 150 children ranging in age from infants to five years old. The enrolled childcare facility would be available for UCMC employees and a limited group of children with neurodevelopmental disorder from the M.I.N.D. Institute. The facility would be developed consistent with the National Association for the Education of Young Children (NAEYC) standards. The single-story building would be residential in scale and would include two outdoor fenced play areas. Limited short-term parking would be provided for dropping off and picking up children. Operation of the proposed childcare facility would include up to 24 teachers and 4 staff who would be near to the Medical Center population.	Neg	10/21/2002
2002092066	Parcel Map #02-26, Ed Powell Tehama County --Tehama To create two parcels; one approximately 40.1 acres and one approximately 59.0 acres in an EA-AP; Exclusive Agricultural-Agricultural Preserve Zoning District. The project is located approximately 2.0 miles east of Flourney, on the northwest side of Paskenta Rd./Boggs Champlin Rd. intersection. APN: 61-180-76. Approximately 99.4 acres.	Neg	10/21/2002

	existing motors, install variable speed drive on cooling tower, install energy management system and lighting retrofit.		
2002098342	Energy Conservation Measures Project at Napa State Hospital General Services, Department of --Solano The Department of General Services proposes to retrofit this state facility in order to conserve energy and reduce expenses. This project will replace and upgrade the remaining T-12 fixtures with T-8 fixtures. The facility's cooling heating and ventilation systems are served by air handling units of varying constant, volume systems. These motors are at the end of their useful life and will be replaced. The facility has a high-pressure steam system being supplemented by three 37,000 lbs/hour Nabors steam boilers that were installed in 1980. Due to the poor part load characteristics of the existing burners, it is proposed that Boiler #2 be de-rated from 37,000 lbs/hour to 15,000 lbs/hour. A new 570 nominal ton cooling tower and condenser water pump is recommended to optimize the cooling capacity for the building as well as to improve efficiencies.	NOE	
2002098343	Energy Conservation Measures Project at the Porterville Developmental Center General Services, Department of Porterville--Tulare The Department of General Services proposes to retrofit this state facility in order to conserve energy and reduce expenses. This project will include the following: remove two existing chillers and provide three new high efficiency electric hermetic centrifugal chillers, install three new primary and secondary chilled water pumps, provide three 5 kV circuit breakers and starters for CH-1 (230 kW), CH-2 (460 kW), and CH-3 (460 kW), and replace existing 500 kVA substation and 800 amp motor control center with a 750 kVA substation and 1000 amp motor control center to accommodate additional cooling tower fan and pump.	NOE	
2002098344	Leasing Space for Office Use Military Department, CA. National Guard Fresno--Fresno The California Department of Military proposes to lease a 1575 (net) square foot of an existing office space in Fresno. A dozen full time personnel of the CA Air National Guard will use the proposed space. The use will include mission planning and briefing, gathering and filing of historical data and presenting of briefings to outside agencies. The lease is scheduled to commence November 1, 2002 with a year firm term. An additional four years soft term is provided in the lease. No Unit drills will occur at this site. No recruiter will work out of this location. No exclusive parking is provided in this lease. No arms, ammunition nor explosives (AA&E) will be stored at this site. This site is near public transportation.	NOE	
2002098345	Leasing of Office Space and Warehouse Military Department, CA. National Guard Bakersfield--Kern The California Department of Military proposes to lease approximately 4,023 square feet (net) of existing office space and 11,127 square feet (net) of an existing warehouse located in Bakersfield, CA. Three full time occupants will utilize existing space and approximately 90 traditional Guardsmembers will utilize warehouse space, which is being converted by the Lessor to appropriate assembly area. Included in the existing officespace is a classroom to facilitate small group classes during unit (monthly) training assemblies and/or be utilized to present staff briefings(s) at other times during the month. Also, included in the existing office	NOE

2001082058	Oakland Army Base Area Redevelopment EIR Oakland, City of Oakland--Alameda The Port of Oakland's reuse of portions of Oakland Army Base ("Port Project") is part of a larger project described and analyzed in the City of Oakland's Oakland Army Base Area Redevelopment Plan EIR. The Port Project is the portion of the Proposed Project described in the EIR that would be carried out by the Port, consisting primarily of relocating and existing rail yard (New Intermodal Facility), building a new marine terminal (New Berth 21), and providing infrastructure improvements. Port development on the OARB is anticipated to occur on approximately half of the base property. The Port may, however, be required to purchase more of the Oakland Army Base property than the Proposed Project contemplates. If this occurs, the Port Project will include Port implementation of the following development on the additional property the Port receives: 1) the Proposed Project (e.g., office and/or R&D space); 2) the Full Maritime Alternative described in the EIR (adding more ancillary maritime support space); or 3) a combination of some elements of the Proposed Project and some elements of the Full Maritime Alternative, if this combination would neither cause impacts more severe than those of the Proposed Project nor cause new significant impacts.	NOD

2002098380	Whittier Hills Conservation EAsement (Former Unocal Property) Puente Hills Landfill Native Habitat Preservation Authority Whittier--Los Angeles The project involves granting a conservation easement over approximately 15.5 acres of coastal sage scrub restoration and approximately 3 acres of riparian habitat restoration. The conservation easement will be held by the California Department of Fish and Game as a mitigation measure to a project outside of the immediate area. The conservation easement restricts invasive impacts on the designated locations. The land is owned by the City of Whittier.	NOE	
2002098381	Gentry Kennels Bridge Fish & Game #3 American Canyon--Napa The Operator proposes to replace a broken bridge and install bank erosion protection on an unnamed tributary located behind the horse arena at 2150 American Canyon Road, American Canyon, Napa County. Issuance of a Streambed Alteration Agreement Number R3-2002-0734 pursuant to Fish and Gamne Code Section 1603.	NOE	
2002098382	R4-2002-0106; Lewis Creek and Outside Creek Fish & Game #4 --Tulare The placement of water-control structure in Outside Creek and the realignment of Lewis Creek, where fill will be used in portions of Lewis Creek to divert flows into the new meandering channel and to tie back into the existing channel. Some vegetation will be removed due to the excavation of the banks at the three locations. The proposed poject will result in a new and permanent meandering channel for Lewis Creek.	NOE	
2002098383	Application to Appropriate Water State Water Resources Control Board --Tehama Applicant proposes to build onstream reservoirs of approximately 48.2 and 49.1 acre feet (AF) capacity, respectively, for purposes of stockwatering, fish and wildlife preservation/enhancement, and recreation. Plans for a third proposed reservoir of 11.1 AF capacity have been dropped. The reservoirs will be located on an intermittent stream. The area to be inundated includes blue oak (Quercus douglasii) woodland, mixed chaparral and grazed annual grassland. Approximately 232 blue oaks, of 10" diameter or greater, and 68 chaparral bushes will be removed for reservoir construction. A blue oak riparian species mitigation plan has been prepared, and the plan will be incorporated as terms and conditions of the water right permit. Vernal pool habitat is absent on the sites, and an archeological field investigation was negative for artifacts. Well water will be used as an alternate water source when the stream runs dry, usually between May and November. No protests to the application were received.	NOE	
2002098384	Field Obstruction Removal Project Del Norte County Planning Crescent City--Del Norte The Project consists of removal of trees and brush in the approach to Runway 17/29. This will also entail a survey of the approach to Runway 29 to determine which trees must be removed.	NOE

2002092081	<p>Ebner's Hotel Restoration or Reconstruction Project Sacramento, City of --Sacramento</p> <p>The project involves reviewing four alternative treatments to an historic building in the Old Sacramento National Landmark District that has been condemned as a dangerous building.</p> <p>In 2001, the Redevelopment Agency of the City of Sacramento (Agency) authorized the Downtown Development Group to solicit bids for the stabilization of the Ebner's Hotel located in Old Sacramento. The goals for the stabilization project included:</p> <ol style="list-style-type: none"> 1. The removal of the building from the City's Dangerous Building list. 2. The preservation and eventual reuse of the Ebner's Hotel building. 3. The safe repair of all the erosion under the alley and sidewalk. 4. Restoring the area around the Ebner's Hotel to full use for the business owners and patrons as quickly as possible. <p>The total project cost at that time was estimated to be \$1.3 million. The project was awarded and work on-site started in the spring of 2002. During construction, as sections of the building were being uncovered, the contractor identified additional damage that could not have been foreseen prior to commencement of construction. The contractor ceased progress on the project due to safety concerns, and staff and project consultants have been evaluating potential options and costs. The unforeseen conditions changed the scope and cost of the project so significantly that work could not proceed under the original scope of the project.</p>	NOP	10/23/2002

2002082041	Bank Stabilization at Bridge No. 36-48, Hwy 9, PM 9.3 Caltrans #5 --Santa Cruz This project is the more permanent solution. Work will include repair of the scoured southern bank for approximately 120-feet upstream of the bridge. The emergency work performed this past winter is inadequate as a permanent repair because it can only protect the bank up to moderate flows. The current project will place rock rip rap over filter fabric with a vegetative revetment (willow) that will extend up the southern bank to variable elevations. The total area of rip rap placement will be approximately 120-feet by 15-20 feet tapering to conform to the existing sandstone formation. The existing sack-concrete apron immediately under the south footing of the bridge is undermined and needs stabilization. In order to reduce potential impacts to steelhead, pre-cast concrete jacks will be lowered by crane and hand-placed below and adjacent to the sack- concrete apron. Once in place, the jacks should slow flow under the sack-concrete and facilitate the deposition of sediment within the jacks helping reduce further scour and stabilizing the footing. There is an existing gravel bar on the north side of the river immediately upstream of the Highway 9 Bridge that is believed to be the cause of the bank erosion. This bar was partially removed as part of the emergency work during the winter, and the removal of additional material is necessary to restore parallel flow through this section of the river. A crane operated from the bridge and an excavator on the gravel bar will be used to place the rip rap on the south bank. A front-end loader and crane will remove the material from the gravel bar will be used to place the rip rap on the south bank. A front-end loader and crane will remove the material from the gravel bar. The material will be trucked off-site to an appropriate disposal site.	NOD	
2002099042	Kapalua Estates Fish & Game #2 Elk Grove--Sacramento SAA #R2-2002-358 Deepening and widening previously channelized drainage, including culverted crossing, and two drainage outfalls.	NOD	
2002099043	Mumford Dam Fish Passage and Riparian Restoration Project Fish & Game #3 --Sonoma The objective of the Mumford Dam Fish Passage and Riparian Restoration Project is to restore anadromous fish passage, restore riparian habitat, and stabilize eroding stream banks. Restoration will occur through 3 phases: bio-technical channel adjustments, bank re-contouring, and re-vegetation. The project area is located on the West Fork of the Russian River 1 mile upstream of the town of Redwood Valley.	NOD	
2002099044	Summit Ranch Fish & Game #3 --Santa Clara Construction of an access road along an unnamed tributary to Pacheco Creek in Santa Clara County. The project also includes placing an 80-foot, 36-inch long culvert along the existing creek channel.	NOD

	deadline to collect tax increment by ten years for those properties within the project area that remain blighted or that are tied to projects that eliminate blight. This deadline amendment will extend the effectiveness of the Redevelopment Plan from 2010 to 2020, and the deadline for incurring debt from 2020 to 2030.		
2002082111	RH Dyck Inc. Solano County, Department of Environmental Planning Services --Solano Use Permit Application for an offsite product agricultural processing facility.	Neg	10/28/2002
2002091108	Village Community Presbyterian Church San Diego County Department of Planning and Land Use --San Diego The project is a request for a modification to a previously approved Major Use Permit (P72-108) for religious assembly uses. The proposal involves converting an existing 2,940 square foot single-family residence on an adjacent 2.5-acre parcel into a meeting place for youth to be used in connection with Church. The proposed modification also involves constructing a new parking area located south of the residential structure as well as expanding the existing parking area on the Church site adjacent to La Valle Plateada and constructing a driveway connecting the easterly and westerly parking areas adjacent to Paseo Delicias. The total existing and proposed build out for the Church uses will be 47,992 square feet of buildings and 295 parking spaces on 8.11 acres. Proposed grading for project implementation will involve 930 cubic yards of cut and 2,700 cubic yards of fill. The project also involves the designation of biological open space over the southeasterly portion of the lot to preclude impacts to sensitive biological resources. The Santa Fe Irrigation District will provide water Service to the project and the Rancho Santa Fe Sanitation District will provide sewer service. Access to the project site is off Las Colinas.	Neg	10/25/2002
2002091109	Yacoo Minor Residential Subdivision San Diego County Department of Planning and Land Use --San Diego The project is a minor residential subdivision of a 6.85-acre parcel into 4 lots and one remainder parcel where an existing house currently exists. The lots range in size from 1.20 acres to 1.38 acres. The remainder parcel is 1.65 acres. The project proposes to create a private road named Schlee Canyon Court that would extend +/-100 feet northeast of Schlee Canyon Road and would provide access to lots 1-3. Lot 4 and the remainder parcel would be accessed from Schlee Canyon Road. The lots will receive water from the Otay Water District and will have on-site sewage disposal systems.	Neg	10/25/2002
2002091110	Hunt Residential Grading Permit; L 14040; ER 02-14-030 San Diego County Department of Planning and Land Use --San Diego This project is a residential grading plan proposing to grade and clear approximately two acres of the 3.7-acre parcel. The grading is for the proposed construction of a second single-family residence.	Neg	10/25/2002

	the the Commission to participate in various programs and activities (e.g., infrastructure construction, property-improvement loans and grants, parcel assembly, etc.) aimed at encouraging private investment within the Project Area.		
2002091119	The Wall-Las Memorias Memorial at Lincoln Park Los Angeles, City of Los Angeles, City of--Los Angeles The proposed project includes the development of the Wall-Las Memorias and associated park and landscape features. Construction will involve the creation of an open garden area to include bench seating, a walking path consisting of lithocrete and brick, eight wall panels, a rose garden, and a sculpture. Two of the eight panels, each on a 14-foot by 10-foot wall structure will be comprised of slate and will be engraved with the names of people who have died as the result of the Auto Immune Deficiency Syndrome Virus (AIDS virus). The remaining six panels, each on a 13-foot by 9-foot wall structure will be comprised of porcelain, enameled steel, or mosaic tiles, and will be used to showcase selected murals. Proposed lighting will consist of accent lighting, which will be placed along the proposed pathway, at panels and trees in the immediate project area.	Neg	10/28/2002
2002091121	Torrey Santa Fe/Kilroy San Diego, City of San Diego--San Diego Planned Industrial Development Permit Amendment (PD Amendment) to allow the development of up to 480,000 s.f. of business uses on a 16.57-acre site which was previously approved for 300,000 s.f. of business/office uses. Applicant: Kilroy Realty Corporation.	Neg	10/28/2002

2002098433	Squaw Valley PSD Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe Olympic Valley--Placer Installation of three stream gages to collect basic data for use in Squaw Valley groundwater Management Plan.	NOE	
2002098434	Upgrade Compressed Natural Gas Station Butte County Chico--Butte Upgrade the existing Butte County Public Works Compressed Natural Gas (CNG) fueling station. The project would include adding two storage pressure vessels, which will increase storage/filling capacity while substantially decreasing the fill time for the CNG vehicles.	NOE	
2002098435	Three-year Varinace Renewal for Ventura County to Conduct a Mobile Recyclable Household Hazardous and Conditionally Exempt Small Quantity Generator Toxic Substances Control, Department of --Ventura Ventura County will collect specific household hazardous and CESQG recyclable waste streams in remote or otherwise under-served county areas. Those recyclable wastestreams include: used motor oil, oil filters, antifreeze, latex paint, lead-acid batteries, household type batteries, and fluorescent lamps. This variance to Ventura County is for the operation of a mobile recyclable household hazardous waste (HHW) and CESQG collection program and exempts the program from manifest and transporter registration requirements. No other household, business, or agricultural wastes will be accepted. No explosive, radioactive, infectious/medical, or compressed gas cylinders will be accepted. These collections provide appropriate means for disposal of these wastes. The variance is based on the evidence that: 1. Remote and underserved area households and CESQG will participate in this mobile collection program; 2. Ventura County or contractor staff will continuously man the collection operation during operating hours; 3. At the end of each day the collection trailer and contents and the oil tank will be transported to and stored at the county maintenance yard; 4. When full the used oil will be either transported to an appropriate	NOE

	disposal/recycling facilities or will have the contents removed and transported by a used oil collection transporter; 5. Other collected recyclable wastes will be transported under manifest to an authorized facility; and 6. All federal Department of Transportation, California Vehicle Code and California Highway Patrol regulations will be met.		
2002098436	Three-year Variance Renewal to the City of Norwalk to Conduct Residential Household Hazardous Waste Collections Toxic Substances Control, Department of Norwalk--Los Angeles Variance renewal to the City of Norwalk from hazardous waste facility permit requirements. The three-year variance authorizes Norwalk to conduct door-to-door (residential) collections of HHW. The collections provide appropriate means for the elderly and handicapped, and others unable to participate in the regular HHW collection program of disposing of hazardous waste. The variance is based on the evidence that: 1. The residential collections will meet strict standards and wastes are delivered to an authorized facility; 2. Only personnel trained in hazardous waste management shall handle or package hazardous waste; and 3. All collected wastes will be transported by a registered hazardous waste hauler to a HHW collection facility for further management.	NOE

2002091130	Eugene Nelson by Barnhill Consulting Inc. Kern County Planning Department --Kern Amend the Land Use, Open Space, and Conservation Element of the Kern County General Plan from Map Codes 5.3 (Maximum 10 Units/Net Acre) and 6.2 (General Commercial) to Map Code 7.1 (Light Industrial) or a more restrictive map code designation and change in the zone classification from CH (Highway Commercial) and R-1 (Low-density Residential) to M-1 PD (Light Industrial Precise Development) or a more restrictive district. The site is proposed to be used for the construction of two 5,000 square foot warehouses with spaces to be leased to local businesses.	Neg	10/29/2002
2002091131	Allsize Storage Expansion: General Plan Amendment 01-210, Spec. Plan Amendment 01-211/Site Permit 01-212 San Clemente, City of San Clemente--Orange A request to amend the City's General Plan and the Rancho San Clemente Specific Plan to increase the General Plan maximum floor area ratio from the present 0.5 to 0.75, allow mini/private storage and recreational vehicle storage uses in the Rancho San Clemente Business Park, and project plans for a phased 51,699 square foot addition to the storage use and 54+/- interim recreational vehicle storage space.	Neg	10/29/2002
2002091133	EA SD 7-01; Conditional Use Permit No. 4 Map No. 119 Kern County Planning Department --Kern A CUP to allow a surface mining operation and development of a reclamation plan on an 81.42-acre parcel in accordance with the Surface Mining and Reclamation Act (SMARA) of 1975. Request is intended to legalize a minig operation established without the necessary land use approvals and bring the mining operation into compliance with SMARA. The CUP is to allow for the continued mining of sand and gravel and development of a comprehensive reclamation plan for disturbance associated with mining activities. The project site encompasses 81.42 acres and is subject to a Williamson Act Land Use Contract. As proposed, mining would disturb approximately 55-acres of the proposed 81-acre parcel. Mining would continue to employ 2 to 4 individuals and entail open pit mining techniques. The mine would operate during daylight hours, generally 8 hours per day, 5 days per week over its anticipated 20-year remaining life. The applicant estimates that 80,000 tons of material would be removed per year with a total	Neg	10/29/2002

1992052017	Orville Wright Neighborhood Park Modesto, City of Modesto--Stanislaus This is a conditional use permit to a 72.5-foot cellular communications antenna tower and related equipment.	NOD	
1992122014	Issuance of Streambed Alteration Agreement # R2-264-00 Rocklin, City of Rocklin--Placer The California DEpartment of Fish and Game is executing Lake or Streambed Alteration Agreement number R2-2002-363 pursuant to Section 1603 of the Fish and Game Code to the project applicant, Elliot Homes. The project is installation of 3 temporary crossings as preparation for initial grading activities for subdivision development. Lead agency prepared EIR for General Plan Amendment, Rezoning, General Development Plan, Tentative Subdivision Map, Specific Plan Use Permit and Tree Preservation Permit. Agreeemnt and notice pertain only to temporary crossings.	NOD	
2001052105	State Route 99/Improvement Project With Hammer Lane Interchange Reconstruction San Joaquin County Stockton--San Joaquin The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number R2-2002-349 pursuant to Section 1601 of the Fish and Game Code to the project applicant, California Department of Transportation. The project is drilling of holes, placing concrete piles, moving and replacing flood control culverts and pipes, constructing temporary cofferdam, and temporary diversion of streamflow associated with the widening over waterbodies.	NOD	
2001072093	West Shore Bike Path Realignment - Upper Sequoia Area Tahoe City Public Utility District --Placer The California Tahoe Conservancy has authorized a grant to the Tahoe City Public Utility District for site improvements for implementation of the West Shore Bicycle Trail Upper Sequoia Crossing Project. The project as proposed includes the reduction of highway lane widths in both directions, a painted center island, international crossing stripes, and a pedestrian-activated warning system. Flashing beacons and signs are also proposed for placement approximately 500 feet and 250 feet from the crossing in both directions to alert drivers of the presence of people in the crossing. The project also includes a redesign of the north side of the trail to eliminate sleepness and create a 5% maximum grade for consistency with Americans with Disabilities Act (ADA) requirements. The trail would maintain a minimum eight-foot width, with an additional two feet of clear shoulder on each side, and be striped to accommodate two-way traffic. A four-foot-tall split-rail fence would provide additional separation between trail users and the highway. The proposed trail realignment would require 260 feet of four-foot-tall retaining wall.	NOD

2002098461	<p>Application to Appropriate Water State Water Resources Control Board, Division of Water Rights --Nevada</p> <p>The applicant (Retract Reservoir Association) filed application 31298 on February 22, 2002 with the State Water Resources Control Board (SWRCB). The applicant proposes to divert 49 acre-feet annually (afa) of water from an ephemeral stream to an onstream reservoir with a capacity of 49 acre-feet (af). The ephemeral stream is tributary to an unnamed stream thence Dry Creek thence Bear River thence Feather River in Nevada County, CA. The reservoir (Retrac Reservoir) has a surface area of 6.8 acres (a), a depth of 24 feet (ft) and is formed by an earthen dam that is 530 ft long and 19.3 ft high. The applicants desire to legalize this existing reservoir as its dam has been in place since the early 1950s and there is no planned construction. California Department of Fish and Game (DFG) and SWRCB staff have concurred that there are no expected environmental impacts due to the existence of this reservoir since the early 1950s and due to the non-consumptive uses of water at the reservoir. There are no protests to application 31298.</p>	NOE

2002098545	Ski Run Boulevard Multi-Use Trail Tahoe Conservancy South Lake Tahoe--El Dorado The project will be constructed primarily within unimproved road shoulders that are highly compacted, with little or no vegetation and are an acknowledged source of sediment that contributes to the degradation of water quality. Construction of a multi-use trail (eight feet wide) on both sides of Ski Run Boulevard, and installation of curb gutter, trail lighting, and landscaping will improve water quality and reduce vehicle miles traveled by providing a safe alternative for cyclists and pedestrians.	NOE

<u>Documents Received on Monday, September 30, 2002</u>			
2002098546	Ward Creek Wildlife Habitat Acquisition Project Tahoe Conservancy --Placer Purchase of fee and/or less-than-fee interests in property totaling approximately 0.22 acres within and adjacent to Ward Creek Subdivision, together with rights of access and an assignment of water rights along Ward Creek. The acquisition will be under the Conservancy's Wildlife Enhancement Program for water quality protection, stream environment zone/watershed restoration, and wildlife habitat enhancement purposes.	NOE	
2002098547	Acquisition of up to two environmentally sensitive parcels or parcels necessary to protect the natural environment. Tahoe Conservancy --El Dorado Purchase of fee interest in up to two environmentally sensitive parcels or parcels necessary to protect the natural environment as part of the California Tahoe Conservancy's land acquisition program.	NOE	
2002098548	License for groundwater monitoring wells, extraction wells, and underground extraction pipe. Tahoe Conservancy --Placer License agreement with Tesoro Petroleum Companies, Inc. for the purpose of operating and maintaining two monitoring wells, two extraction wells, and underground extraction pipe to monitor and treat hydrocarbons in the groundwater table as required by the Lahontan Regional Water Quality Control Board.	NOE	
2002098549	Assignment of Ground Restoration Credit to El Dorado County APN 17-021-05 (Lane) Tahoe Conservancy --El Dorado Project consists of the sale and assignment of 144 sq. ft. of restored class 1, 2, 3 credit, from Conservancy-owned land to a receiving parcel on which a minor structure (garage) accessory to existing facilities will be reconstructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in class 1, 2, or 3 areas within the Lake Tahoe Basin.	NOE
